

Logging Off

Infinite Campus contains extensive information about students and staff in Alachua County Public Schools. Security of these data is critical.

Never leave your computer with Infinite Campus open. Always log off the system when leaving. Because Infinite Campus is a web-based program, there may be a tendency to think that closing the browser window may be sufficient to close access to the data. This may not always be the case. Be sure to log off rather than simply closing the browser window.

To log off:

Activate the **Index** tab in the left navigation panel of Infinite Campus and select **Log Off** at the bottom of the list.

Note: Your index list may appear different than the one pictured above
