Alachua County School Board

RE: Contract Funding

Dear Ms. Hughes:

Reductions previously made to Alachua County Health Department categorical and non-categorical General Revenue Schedule C allocations were based on the 4% reduction in General Revenue releases. The Special Appropriations Act for Fiscal Year 2007-2008 has been approved and reductions are only being made to Alachua County Health Department non-categorical General Revenue and Tobacco Trust Fund appropriations. Therefore, all Alachua County Health Department Schedule C categorical allocations previously reduced have been changed back to the original amount funded. Furthermore, these adjustments have already been posted to our Schedule C budget for the fiscal year 2007-2008. Please share this information with the Board as soon as possible. Thank you in advance for your prompt attention to this request and if you need further information please contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Jean Munden", is written over a horizontal line.

Jean Munden, Interim Director  
Alachua County Health Department
